

## CERTIFICATE OF DOCUMENTATION FOR THE VESSEL "WILD GOOSE"

AUGUST 6, 1992.—Committed to the Committee of the Whole House and ordered to be printed

Mr. JONES of North Carolina, from the Committee on Merchant Marine and Fisheries, submitted the following

### REPORT

[To accompany H.R. 5163]

[Including cost estimate of the Congressional Budget Office]

The Committee on Merchant Marine and Fisheries to whom was referred the bill (H.R. 5163) to authorize issuance of a certificate of documentation for employment in the coastwise trade of the United States for the Vessel *Wild Goose*, having considered the same, report favorably thereon without amendment and recommend that the bill do pass.

#### PURPOSE OF THE BILL

The purpose of H.R. 5163, as reported, is to grant coastwise trading privileges to the vessel, *Wild Goose*.

#### BACKGROUND AND NEED FOR LEGISLATION

Section 27 of the Merchant Marine Act, 1920 (46 App. U.S.C. 883) provides that only a vessel built in the United States, documented under the laws of the United States, and owned by a citizen of the United States may transport merchandise in the coastwise trade of the United States. It also provides that a vessel that has acquired the right to engage in the coastwise trade and is later sold foreign (to an alien) or is placed under foreign registry may not engage in the coastwise trade. In addition, Chapter 121 of Title 46, United States Code, prohibits foreign-built, -owned, and -documented vessels from engaging in the U.S. coastwise trade.

A U.S.-built vessel does not permanently lose its right to engage in the fisheries of the United States if it is sold to an alien or if it is placed under foreign registry. Chapter 121 of Title 46, United

States Code, establishes requirements for the issuance of a fishery license and registry—one of which is a requirement that the vessel be built in the United States.

When the facts surrounding any particular vessel involve one or more of these statutory prohibitions, the Coast Guard will not issue a document granting coastwise trading or fisheries privileges. A vessel may acquire these privileges through special legislation authorizing the Secretary of the department in which the Coast Guard is operating to issue the necessary documentation.

In the past, the Committee has approved special legislation when the owner proved there were extenuating circumstances, such as severe financial hardship. For example, a person may purchase a vessel or may spend considerable sums of money in U.S. shipyards to refurbish it, and only after spending the money does the owner learn that there is a defect in the chain of title or that the vessel is foreign-built, making it impossible to use in the intended trade. The Committee has also approved special legislation when the vessel or its operation was unique and documentation for commercial service or the fisheries was in the national interest.

The Administration consistently opposes any relaxation of the cabotage laws, absent some compelling reason. It feels that coastwise trading and fishing restrictions have been enacted to protect and foster United States maritime and shipyard industries and that any relaxation should be approached with caution. However, when the Congress has presented a compelling reason for a particular vessel, the Administration has not opposed special legislation.

H.R. 5163 was introduced by the Honorable Christopher C. Cox (R-CA) on May 13, 1992, to permit the issuance of a certificate of documentation for the *Wild Goose* for employment in the coastwise trade of the United States.

The *Wild Goose*, United States official number 290117—a 136-foot wooden yacht—was originally constructed in 1943 in Seattle, Washington. The information that has been made available to the Committee is that the *Wild Goose* is currently owned by the Wild Goose Yacht Corporation (Mr. A. V. Kozloff) of Irvine, California, which purchased the vessel in 1991.

The vessel was originally used by the U.S. Navy as a minesweeper (USN YMS 328). In 1960, it was declared surplus and sold to a Canadian owner in Vancouver, British Columbia. In 1962, it was sold to the Seattle Yacht Club. In 1965, the vessel was purchased by John Wayne and renamed the *Wild Goose*.

The current owner has extensively restored John Wayne's yacht. Mr. Kozloff would like to use the *Wild Goose* to transport passengers but requires special legislation because a previous owner was Canadian.

#### COMMITTEE ACTION

On May 20, 1992, the Subcommittee on Merchant Marine held a hearing to consider a number of bills to grant coastwise and fisheries privileges to certain vessels. Appearing at the hearing were various Members of Congress and a representative of the United States Coast Guard. On June 18, 1992, the Subcommittee on Merchant Marine marked up these bills en bloc. No amendments were

offered, and the Subcommittee ordered the bills reported to the Full Committee by voice vote. On July 1, 1992, the Committee on Merchant Marine and Fisheries marked up these bills en bloc. No amendments were offered, and the Full Committee ordered the bills reported to the House by voice vote.

The *Wild Goose* was on the hearing list, and Representative Cox submitted a record statement in support of his legislation. H.R. 5163 was subsequently marked up by both the Subcommittee and Full Committee and ordered reported without amendment.

#### SECTION-BY-SECTION ANALYSIS

The bill consists of one section. It provides that, notwithstanding section 12106 of title 46, United States Code, and section 27 of the Merchant Marine Act, 1920 (46 App. U.S.C. 883), as applicable on the date of enactment of H.R. 5163, the vessel *Wild Goose* is eligible to engage in the coastwise trade and the Secretary of Transportation may issue a certificate of documentation for such vessel.

#### INFLATIONARY IMPACT STATEMENT

Pursuant to clause 2(1)(4) of rule XI of the Rules of the House of Representatives, the Committee estimates that the enactment of H.R. 5163 will have no significant inflationary impact on prices and costs in the operation of the national economy.

#### COST OF THE LEGISLATION

Clause 7(a) of rule XIII of the Rules of the House of Representatives requires an estimate by the Committee of the costs which would be incurred in carrying out H.R. 5163. However, clause 7(d) provides that this requirement does not apply when the Committee has included in its report a timely submitted cost estimate of the bill prepared by the Director of the Congressional Budget Office under section 403 of the Congressional Budget Act of 1974.

#### COMPLIANCE WITH HOUSE RULE XI

1. The Subcommittee on Merchant Marine held a hearing on H.R. 5163 on May 20, 1992.

2. With respect to the requirements of clause 2(1)(3)(B) of rule XI of the Rules of the House of Representatives and section 308(a) of the Congressional Budget Act of 1974, H.R. 5163 does not contain any new budget authority, spending authority, credit authority, or an increase or decrease in revenues or tax expenditures.

3. With respect to the requirements of clause 2(1)(3)(D) of rule XI of the Rules of the House of Representatives, the Committee has received no report of oversight findings and recommendations from the Committee on Government Operations on the subject of H.R. 5163.

4. With respect to the requirements of clause 2(1)(3)(C) of rule XI of the Rules of the House of Representatives and section 403 of the Congressional Budget Act of 1974, the Committee has received the following cost estimate for H.R. 5163 from the Director of the Congressional Budget Office.
